

COLLEGIATE ENGAGEMENT POLICY

SPRING 2017

Students in Fundamentals of Engineering (FEP) courses (ENGR 100, 101, 102, 199, MAE 102 and CHE 102) are required to attend engineering-related events outside of their regularly scheduled class time. These activities, dubbed Collegiate Engagement, are designed to help students gain a better understanding of their professional, personal, and social development while attending West Virginia University.

Collegiate Engagement activities account for 5% of the course grade in each of the Fundamentals of Engineering courses. In order to receive credit, students must complete a Collegiate Engagement form and thoughtfully answer the questions listed. Copies of these forms can be found on the FEP website and within the Engineering Learning Center. All forms should be turned in to the instructor of each course. The method of completion is at the discretion of the faculty instructor.

A calendar of Collegiate Engagement activities can be found on the FEP website, and should a student find an activity he/she believes should be considered that isn't listed on the calendar, he/she must obtain approval from his/her faculty prior to the event to receive credit.

CLASS REQUIREMENTS – COLLEGIATE ENGAGEMENT ACTIVITY CREDIT MAY NOT BE USED IN MORE THAN ONE COURSE.
