An excellent way to get an overview of the types of programs and locations available for an international educational experience.

An overview of some basic hydraulic fracturing concepts and research conducted on hydraulic fracture dimensions in the Marcellus Shale.

Developing sound goals is critical to managing your academic, professional, and personal growth. This session will aid you in creating a goal that is specific, measurable, achievable, results focused, and time bound for your Collegiate Engagement portfolio and beyond!

Classes, homework, work, friends, eating, sleeping, exercise, Netflix. Sometimes there just doesn’t seem to be enough time in the day to fit it all in! This workshop will give you tangible skills to help find some balance and manage your time to be productive and still have time to rest too. Bring your planners!

There are more study abroad options for Engineers than you might think. Learn how to study abroad without delaying graduation or breaking the bank.
