Last math class in high school: _____

GPA last semester: _____

What math course did you take last semester? _____

Grade? _____

What math course did you take this semester? _____

Grade Expected _____ W _____

Reason for transferring (Check all that apply):

I am having academic difficulty. In General? _____

In Required Classes? _____

My classes are too large.

Math (126/128/153

My high school education did not prepare me for college courses.

154/155/156)

I think I can make more money in another discipline.

Chem (110/115)

Too much effort required when I am not certain this is what I want to do.

Engineering majors offered do not match my interests.

I have other obligations and the curriculum is too intensive.

Courses I want to take are not offered enough.

Engineering is not challenging enough for me.

I had problems with advising in engineering (If so, please explain): _____

Other (please explain): _____

Why did you start in engineering? _____

IF YOUR INTERESTS HAVE CHANGED, what did you learn about engineering that changed your mind? _____

Could the Benjamin M. Statler College of Engineering and Mineral Resources have done anything to retain you as a student?
